

(For Applicants)

University Recommended Japanese Government Scholarship Procedure (From MuroranIT to MEXT)

【 University Recommendation 】 Muroran Institute of Technology(MuroranIT) will select and recommend scholar candidates to MEXT. We will accept the scholar applicants with outstanding academic records from overseas institutions exchanging academic agreements with MuroranIT. One institution can recommend one student. We will select and recommend limited numbers of candidates (1~3) among all applicants to MEXT. The final decision will be made by MEXT.

Please note that the scholar applicant should contact one of our faculty members with his/her research background and research plan and find an academic supervisor in MuroranIT before the recommendation by home institution.

Meanwhile, the admission application is necessary and should be done by the scholar applicant. The outline of both procedures is shown below. For admission details, please visit our website. <http://www.muroran-it.ac.jp/oia/en/inbound/admissions.html>
